

## Invitation to participate in Solid State NMR Workshop

Dear Colleague,

We are pleased to inform you that we are organizing an international workshop on the recent trends in solid state NMR in biological systems, during January 24-26, 2005. This is a satellite event of ICMRBS to be held at Hyderabad, India, a few days earlier.

I sent an e-mail with attachments of the solid state workshop. However, some of you have replied that attachment have not been received. I understand that attachments are not permitted at some servers due to security reasons and thus many of you have not received the information in full.

I am sending the mail again without the attachment. For the details of the workshop and registration, I request you to kindly visit workshop website at

<http://ssnmr2005.sif.iisc.ernet.in>

Please also bring this to the attention of those who are likely to be interested in the event.

Thanking you and with regards  
Suryaprakash
