それに加えて ICMRBS ではウェビナーでの発表を希望する若手研究者も募集しています。博士課程の学生さん、ポスドク、研究員、助教、技官、若手 PI など広く大歓迎とのことです。ご希望の方は、下記のボランティア 5 人 (あるいはそのうちの 1 人) にご連絡ください。

初回は 9/29 (火) で、その後、月 1 ペースで行われるとのことです。

As you'll be aware, the ICMRBS Council decided to establish a series of webinars that would give early career researchers (ECRs) a chance to present and discuss their work in an informal online environment.

This concept has been embraced by the following group of enthusiastic volunteers:

Angelo Gallo (A.Gallo.1@warwick.ac.uk)

Karoline Sanches (karolsanches@gmail.com)

Nick Fowler (n.j.fowler@sheffield.ac.uk)

Reid Alderson (reid.alderson@utoronto.ca)

Yanni Chin (yanni.chin@imb.uq.edu.au)

They already have a number of excellent suggestions for contributors, but are keen to engage with more early career researchers from Asia. PhD students, postdocs, new lab heads, research assistant, or technicians are all welcome to participate and/or contribute. Thus, we'd be grateful if you could pass this invitation on to ECRs in your institutions and to other lab heads in your network.

If your local magnetic resonance community has a newsletter, perhaps a notice could be included in there also? Those interested in participating are welcome to contact any or all of the ECR webinar committee members listed above (and copied here).

We would like to thank Yanni, Angelo, Karol, Nick and Reid for getting this initiative underway, and look forward to the first webinar in this series, which will be on September 29. Subsequent webinars will be held every 4 weeks thereafter.

An email notice will be circulated via the ICMRBS email list prior to the inaugural meeting. Talks will also be recorded (with the speaker's permission) and made available via the ICMRBS YouTube site. Everyone is welcome to join the ICMRBS email list, which they can do by contacting Kevin Gardner at kgardner@gc.cuny.edu.

Kind regards,

Ray Norton (Monash University)

Joel Mackay (University of Sydney)

Kevin Gardner (City University of New York)

On behalf of ICMRBS.
