Book of Condolence for Richard Ernst

京都大学理学研究科・武田和行

Richard Ernst 先生のご家族へのお悔やみを受け付けています (pdf形式、A4、1ページ)。締め切りは2021年6月18日です。詳細は以下を参照ください。

Dear Colleagues,

some of you have sent replies to my message that Richard passed away earlier this week, describing how he has influenced your life and work and how you interacted with him. Unfortunately, Magdalena and the family will never see these messages because Magdalena does not use email.

We (Beat Meier, Gunnar Jeschke and Matthias Ernst) would like to organize a book of condolences for the family where everybody can design one page where she/he can send a message to Magdalena and the family. We would suggest that you include a picture of yourself and a short text what your relation to Richard was. The rest can be freely designed how you like it.

This Email messages will be distributed to former colleagues of Richard (as far as we have email addresses), to the AMPERE NMR mailing list and to a list of people working in NMR and EPR. Please feel free to redistribute the email. Everybody from the wider NMR community who knew and interacted with Richard is invited to contribute. If you receive multiple copies of this email, my apologies.

We will collect all pages and print them as a professional photo book for Magdalena and the family and we will get an electronic version as an ebook. The ebook will be made public, so please make sure you only include comments that you are willing to share with the broader community. For personal messages, we suggest that you write a letter to Magdalena.

The technical side: We need a SINGLE page A4 with text (not too small, at least 12 point) and pictures (high resolution!) as a PDF file. The deadline to submit contributions is Friday June 18, 2021. Please send submissions to maer@ethz.ch and I will acknowledge receipt of the submissions.

With our best regards,

Beat, Gunnar, Matthias

P.S. I am sure this list is very incomplete. Please forward the email to people who might be interested and I have also sent an email to the AMPERE NMR mailing list.
