Fee: Free

The first Indo-Japan NMR workshop was held 2018 in RIKEN, Japan, followed by the second workshop at the end of 2019 in Hyderabad, India. It was the very last opportunity to meet together in person. Now we are backing to face-to-face meeting after almost three years silence. More than 20 speakers are already confirmed to give fantastic speeches. We are looking forward to enjoying intense discussions at Sapporo!
